Letter of Support- Eddie Whitford, Cree

I support this cultural property rights bill the fullest extent:

- In the past farmers and ranchers allowed tribes to stay on their lands.
- Which brought loyalty and respect among all nationalities; I want this to continue among the all nationalities. I want to honor and respect all nationalities.
- This bill gives us opportunity to work together again, to protect our cultural values, traditions and language of the people.
- This will ensure that our children in the future will continue to educate one another both the non-Indian and Indian
